Product Trainings

TECH-DAY · 24.09.2015

It is worth travelling to Memmingen one day in advance: Some of the **exhibitors offer special product trainings** on 24.09.2015 at different locations in Memmingen.

8:30	h		
9	Studer: Products for efficient power management in PV and hybrid Off-Grid systems. (max 20 participants*)	Sure Chill: Solar direct driven refrigeration of medicines and foods far from the electricity grid. (max 20 participants*)	Steca PV Off-Grid Workshop at the Steca premises: Full Day training. Please register directly on the Steca Website (www.steca.com). The costs for the Steca training will be subtracted from the fee for the Off-Grid Experts Workshop. When registering for the Off-Grid Experts Workshop with the online form on www.off-grid-experts.com , please use the field „note“ and fill in „Participant Steca training“.
10			
11			
12			
13			
14	Hoppecke: High quality storage systems and new technologies. (max 20 participants*)	Outback Power: Energy management and monitoring solutions. (max 20 participants*)	
15			
16			
17			

* The entrance is free for participants of the Off-Grid Experts Workshop, but places are limited. For registration please use the field „note“ in the registration form for the Off-Grid Experts Workshop on www.off-grid-experts.com and note the training of interest.

Programme

WORKSHOP DAY 1 · 25.09.2015

All day:
 ■ Off-Grid Exhibition
 ■ Chill-out lounge with cinema

8:30	h			
9	Welcoming and Kick-Off			
10	Explore the Off-Grid Exhibition		Hands on Off-Grid: Assembling station	Speakers' Corner: Scientific Research
11	Topic 1: Introduction to Off-Grid areas.	Session 1a: Off-Grid energy for rural electrification far from the grid	X Robot Race: Test Off-Grid E-mobility	System Sizing Training with Easy Sizing
12		Session 1b: Off-Grid energy and the grid – side by side	Business Speed Dating: Meet the Experts	Hands on Off-Grid: Assembling station
13	Lunch break and networking			
14	Topic 2: What's new in the Off-Grid sector?	Session 2a: Innovations: Generators, electronics and monitoring	X Robot Race: Test Off-Grid E-mobility	Running Discussion: Who cares for electrification?
15		Session 2b.: Innovations: Storage and loads	Hands on Off-Grid: Assembling station	Speakers' Corner: Capacity Building
16	Electric Motocross Race and Get-together (till 21:00)			

Programme

WORKSHOP DAY 2 · 26.09.2015

All day:
 ■ Off-Grid Exhibition
 ■ Chill-out lounge with cinema

8:30	h			
9	Guide through the day			
10	Topic 3: Develop your Off-Grid project	Session 3a: Project development and planning	X Robot Race: Test Off-Grid E-mobility	System Sizing Training with Easy Sizing
11		Session 3b: Project experiences and case studies	Speakers' Corner: Hybrid Systems & Minigrids	Hands on Off-Grid: Assembling station
12	Coffee break and group picture			
13	Special Guest Christian Felber: Creating an economy for the common good		System Sizing Training with Easy Sizing	
14	Lunch break and networking			
15	Topic 4: Learning from success stories	Session 4a: How to survive the solar crisis	Energy Experts Café 10 Topics at Experts Table	X Robot Race: Test Off-Grid E-mobility
16		Sessions 4b: Innovative business models		Hands on Off-Grid: Assembling station
17	Workshop closure			
19:30	The Off-Grid Experts Awards 2015 Awarding Ceremony and Independance Night with Funk & So(u)lar
